Free ebook download sites: – They say that books are one's best friend, and with one in their hand they become oblivious to the world. While With advancement in technology we are slowly doing away with the need of a paperback and entering the world of eBooks. Yes, many may argue on the tradition of reading books made of paper, the real feel of it or the unusual smell of the books that make us nostalgic, but the fact is that with the evolution of eBooks we are also saving some trees.

These worksheets are tailored to the current textbook: Biology by Miller and Levine (commonly called the Dragonfly book) Most are specifically targeted to chapter sections - as in, students read the section of the chapter and answer very straightforward questions as they read. I originally designed the reading guides to encourage freshman students to read the chapters.
