appears in the list.

Cisco TMS and AD Lookup User Issue - Cisco Community

TMS redundancy use to
be an active/active
model, but was
changed to
active/passive starting
with TMS 14.4. Even if

Where To Download Cisco Tms User Guide

the redundancy model was active/active, without an NLB and using the hot standby method, you'd still be deploying TMS as active/passive because of the manual intervention to failover to the non active node in the case of a failure.

Solved: TMS Cluster - Cisco Community

Users only interact with Cisco TMS through the website, but the
