The New Science Of Axiological

With his book, 'The New Science of Axiological Psychology', Leon Pomeroy achieved a very important milestone: He proofed the scientific evidence of the Hartman Value Profile (HVP). Before, only a number of studies about the HVP were available - however no structured approach to validate the HVP on a sound scientific basis had been undertaken.

Axiology (from Greek αξία, axia, "value, worth"; and -λογία, -logia) is the philosophical study of value. It is either the collective term for ethics and aesthetics, philosophical fields that depend crucially on notions of worth, or the foundation for these fields, and thus similar to value theory and meta-ethics.
