All of these factors combined paint a dismal future for optometry. However, there will always be a niche market for superior products and services that cannot be filled online, or by volume dependent mega-chains. Specialized eye wear, and unique contact lens fittings just can't be done well in a high volume setting.

Is it true that optometry is a dying field? Or that being ...

Someone else mentioned above that the debt incurred in Optometry school is out of proportion of what your income will be. That statement is 100% accurate. I've been an OD for over twenty years and I've seen this wonderful profession make significant strides allowing us greater responsibility to care for our patients.
