Frequently Asked Questions: .308 vs 30-06 Why does the military use .308

## Access Free Ballistics Multiple Choice Questions And Answers

instead of 30-06? In short, military snipers prefer the .308 over the 30-06 because it has a higher ballistic coefficient and it's a short bolt pull. Furthermore, it's a more common round these days and has less recoil than the larger 30-06 case.

### **The .308 versus the 30-06 for Hunting: Ballistics ...**

To answer these questions, I fired groups for accuracy, measured velocity on a chronograph, and observed the performance of each load in ballistics gelatin. In the interest of time, I skipped over the .357 Sig load since it's the least popular of the five calibers.

Rated 5 out of 5 by Norske from Everything works really well The 4.5-14X42 Droptine replaced an older 6X Burris Widefield I had on a sporter weight Ruger M77 MKII 22-250. The extra magnification really helps my 69-year-old eyes. When zeroing the rifle/scope the adjustments worked perfectly. The scope is typically Burris bright, which is an advantage at the indoor 100m range I was using.

The value choice is Hornady's 105gr A-Max (\$16/100 at MidSouth Shooters Supply, #003-24562). The Lapua 105gr Scenar is a very uniform bullet and ultra-accurate, but the max diameter is 0.24285, compared to 0.2433+ for some other brands.

## **6mmBR Cartridge Guide**

Transgender inequality is the unequal protection transgender people receive in work, school, and society in general. Transgender people regularly face transphobic harassment. Ultimately, one of the largest reasons that transgender people face inequality is due to a lack of public understanding of transgender people.
