This color chart represents a set of common colors ordered by name as an one-page overview. Each line consists of RGB values, HEX value, the color's name, luminance value, HSL values and a color rectangle. You can click on a color rectangle to import the color into the HSL Color Picker. RGB, HEX or HSL values can be used as HTML color code or CSS color code.

STO has 4 different color charts to choose from but they are all a part of the larger STO color chart (The STO Color 800 Collection). Since STO has a HUGE amount of colors to choose from, they took some of the colors out and made separate (more focused) color charts like the Classic, Designer and Southwest color charts.

5. Keep colors consistent throughout your article/report. This is a basic principle of good design that is worth repeating: keep the colors you choose consistent. For example, don't color one chart green and another one blue. Or, if your chart contains multiple colors, keep the color scheme consistent across all of the charts.

Quiet, please! This lovely collection of hushed hues knows how to speak volumes — softly. Look for the same quality in your furnishings, like gently rounded tables and downy throws, to express your softer side. Insider Insight: This look is all about the feel. Keep wood furniture light or washed, and choose your textures like they were colors.

Here are a couple tips to help understand Raquel Welch's color codes. S & S+ colors are specially blended in the front and crown with highlights and lowlights that complement the basic color.. Foil colors are multi-tonal shades that are specially created to reflect today's dramatic color blends. They include an all over base color with two contrasting highlight colors around the face.
