The Electric Group aims to provide the highest quality service to its customers and to make a positive impact within the Madison community.

### **Home - The Electric Group**

Electrical engineering is an engineering discipline concerned with the study, design and application of equipment, devices and systems which use electricity, electronics, and electromagnetism. It emerged as an identifiable occupation in the latter half of the 19th century after commercialization of the electric telegraph, the telephone, and electrical power generation, distribution and use.
